

WE DO FOOD

Complete process lines for all demands

We lead the world with expertise and complete food processing solutions. Fully automated lines designed for any needs and turn-key manufacturing solutions enabling highest quality and a most efficient process. **Natec Network's** food processing systems cover all process functions you need for production, processing and packaging of a wide variety of food products from one hand. With our extensive knowledge and experience, we can discover unknown potential and support you in realising them.

Food production is our passion. Our network belongs to the Hochland Group, an internationally successful cheese producer. Besides our technical expertise, the direct access to the food industry ensures our know-how in production and technology as well as our sense of responsibility and product quality is current.

Processed cheese

Cream cheese
