& vegan

Complete process lines for all demands

We lead the world with expertise and complete food processing solutions.

Fully automated lines designed for any needs and turn-key manufacturing solutions enabling highest quality and a most efficient process.

Natec Network's food processing systems cover all process functions you need for production, processing and packaging of a wide variety of food products from one hand.

With our extensive knowledge and experience, we can discover unknown potential and support you in realising them.

Food production is our passion.

Our network belongs to the Hochland Group, an internationally successful cheese producer.

Besides our technical expertise, the direct access to the food industry ensures our know-how in production and technology as well as our sense of responsibility and product quality is current.

natec
NETWORK

Hochland Natec GmbH, Gold Peg International Pty Ltd and Natec USA LLC joined forces to form an international network of food processing companies – the **Natec Network**. Always team spirited and leading in flexibility, quality, and innovation the network delivers customised equipment and production lines for key challenges in food processing and at every stage of business development. In order to meet the customers' requirements, even at the start of a project, the network uses its own specific service framework which combines extensive experience and professional expertise along with a drive for innovation.

The result is technology and support that is crucial in contributing to the value and development of our customers in the food production industry. The love of generating and implementing cutting edge ideas with great impact, as well as the willingness to tailor technology that can exceed the customer's targets, lets the **Natec Network** always strive to unlock business and human potential in a sustainable way with integrity – and thus be a partner who provide more than just technical infrastructure.
