HIGHEST PRECISION IN CUTTING

*Continuously cutting stacked cheese ribbons
to a preset length.*

CrossCutter[®] XC

CrossCutter® XC

The **Natec CrossCutter® XC** is able to continuously cut stacked cheese ribbons to a preset length. The processed cheese ribbons coming from the **Natec FreeSlice®** or other SOS equipment are cut absolutely exact and straight prior to being transported to the next station by the conveyor belt. The **CrossCutter® XC** offers a high performance and is able to cut different variations of processed cheese (SOS) stacks. Even a diagonal cut of the stacked cheese ribbons is optionally available. As the **CrossCutter® XC** is a stand alone unit, it is possible to install it independently between the SOS machine and the SOS Stacker or **Flowpacker®**.

Processed
cheese

+ YOUR BENEFIT

- » Up to 180 cuts / minute including a double lane system
- » Stand alone unit
- » Straight or diagonal cut of the stacked cheese ribbons possible
- » Absolutely exact and straight cuts without crumps
- » Applicable for right and left production flow
- » Interleaf cut possible

✓ OPTIONS & ATTACHMENTS

- » Diagonal cut device
- » Automatic greasing system

⚙️ TECHNICAL DATA

Capacity data

Max. 180 cuts per min.

Machine data

L x W x H: 1,100 x 1,200 x 1,550 mm
(43" x 47" x 61")
400 V, 50 Hz, 10 kVA

Utilities

Compressed air: 1 m³/h at 6 bar

Cutting length

Infinitely adjustable from
35 mm – 305 mm (1.4" – 12")

Maximum stack height

100 mm (4")

Execution

According to CE guidelines

NETWORK

**SUCCESS GENERATING
FOOD TECHNOLOGY**

Hochland Natec GmbH, Gold Peg International Pty Ltd and Natec USA LLC are joining forces to form an international network of companies – the Natec Network. These well-known market players draw on many years of experience in high-quality machinery and plant engineering for the industrial food production sector. The innovative spirit, as well as the willingness to tailor the technology completely according to the customer's needs and business goals, make the network a partner who provide more than just technical infrastructure. The innovative and customised machinery and plants are key factors in contributing to the value and development of the customers in the food production industry.
